

Universal jig kit for radiator connection

APPLICATION

Used to set the radiator's delivery and return pipes.

FEATURES AND BENEFITS

- > It defines in a **reliable** way the radiator position by showing the amount of space it needs to be installed on any kind of support.
- > Essential tool to define the right setting of the radiator delivery and return pipes in a **handy and fast** way.
- > The fastening can occur **at the desired center-to-center distance**.
- > Complete with **easy-to-read graduated scale**.
- > It also contains painted pipes and cam washers to simulate the radiator.
