

## SAP PE foam protection template for sanitary fixtures fastening

### APPLICATION

Used to lean wall hung sanitary fixtures against the wall.

### FEATURES AND BENEFITS

- > Made of **insulating polyethylene foam PE30**, which is resistant to compression and mould, and waterproof. The use of standard chemical cleaning detergents does not affect the product's quality.
- > It must be applied between the sanitary fixture and finished wall during installation in order **to prevent the risk of breaking or damaging the ceramic**.
- > It helps to **spread and compensate the supporting stress** of the item to the wall.
- > **It reduces the noise** spread by water flushing underneath the wall.
- > Prepared to be used on WCs, **it can be adjusted to fit any kind of sanitary fixture**: it can be used even for bidet by cutting off the specific part including GIA's logo.
