

### TR Rigid PVC drain pipe

#### APPLICATION

Condensation drain for outdoor use and in-wall installations, suitable for air-conditioning systems and condensation boilers.

#### FEATURES AND BENEFITS

- > Made of **white PVC**, that is **shock-proof, fire-retardant and UV stabilized**.
- > Recommended **for many kinds of installations**: air-conditioners, condensation boilers, outdoor use and/or in-wall use.
- > The rigid drain pipe is particularly suitable for in-wall installations, especially when it is combined with system set-ups or exposed drain systems. In such cases great accuracy is needed in order to install the water drain system with the proper gradient.
- > **Handy and tight pipes connections** thanks to the specific gaskets with which the fittings are provided.
- > It is recommended the use of a specific **sharpener for pipe's deburring** in order to make fittings connection easier.
- > It is provided in **2mt pipes**.
- > Working temperatures: **-30°C / +75°C**

COD	TYPE	Application	A	B
540201	TR 20	Condensation drain	2 mt	Ø20 mm
540202	TR 25	Condensation drain	2 mt	Ø25 mm
