

# SUMO® EV

180x90 - Support made of recycled SBR rubber

## DESCRIPTION

Support made of recycled SBR rubber with integrated aluminum profile, supplied with M10x30 fixing bolts. Designed to ensure secure and long-lasting installation in both residential and industrial environments.

## BENEFITS AND FEATURES

- Compact and durable support with integrated aluminium profile
- Each package includes 2 supports
- Includes built-in spirit level for accurate and easy positioning
- Corrosion-resistant materials suitable for outdoor use
- Supplied with M10x30 fixing bolts
- Easy to install
- No need to drill the floor

## MATERIALS

- Apparent density 485 kg/m<sup>3</sup>
- Self-flammability 430° C

Sumo rubber supports are manufactured using SBR crumb rubber sourced from end-of-life tyres, supporting a circular economy and helping to reduce environmental impact. The chemical and physical properties may naturally vary depending on the original rubber, with the functional performance of the final product remaining consistent.
